Average Millionaire from property investing took 20 years

Average Millionaire from stock market investing took just 5 years

Getting it right from the start

Wealth Training Company

1) You need a trading plan

2) The three things you need to know

3) The right tools for success

Trying to learn to invest just by yourself

Wealth Training Company

is like starting a business

- It costs a lot of money because you have to learnt from your own mistakes:

- % of businesses that fail:

  After 5 Years = 95%

Think of your investment education

Wealth Training Company

like buying a successful franchise

- Success Rate For Franchises:

  After 5years = 95% still in business

WHY?

You have to thoroughly learn the system and then just follow it – to get the same results.

- Do McDonalds have the best staff / Food?

Why would anyone pay the

high price for a Franchise …?

Franchises: Company	Category	Minimum Investment
McDonalds	Food	**£300,000** + 1 year training
Dunkin' Donuts	Food	**£200,000**
Apollo Blinds	Retail	**£30,000**
Prontaprint	Printing	**£100,000**
Your move	Estate Agents	**£60,000**
Two men and a truck	Moving services	**£50,000**
Anytime fitness	Fitness	**£105,000**

…. because they are highly likely to be successful.

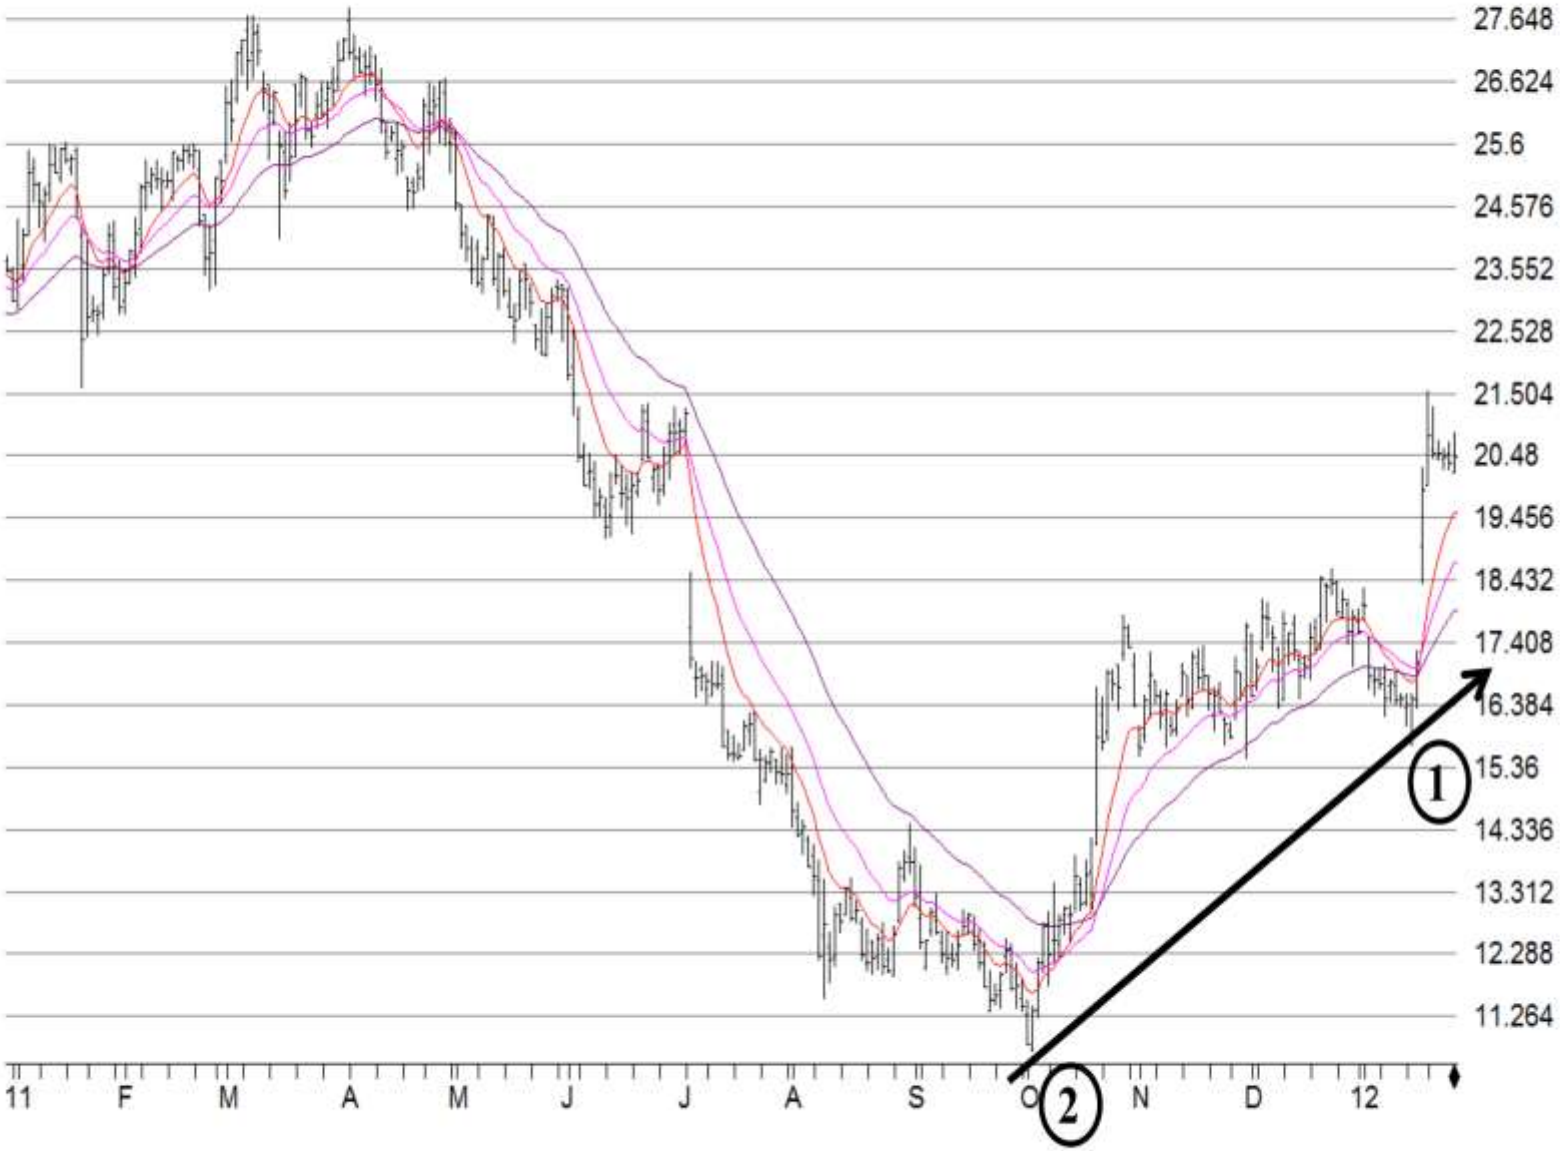
Trend Line EXAMPLE 3



What makes a trend line stronger?

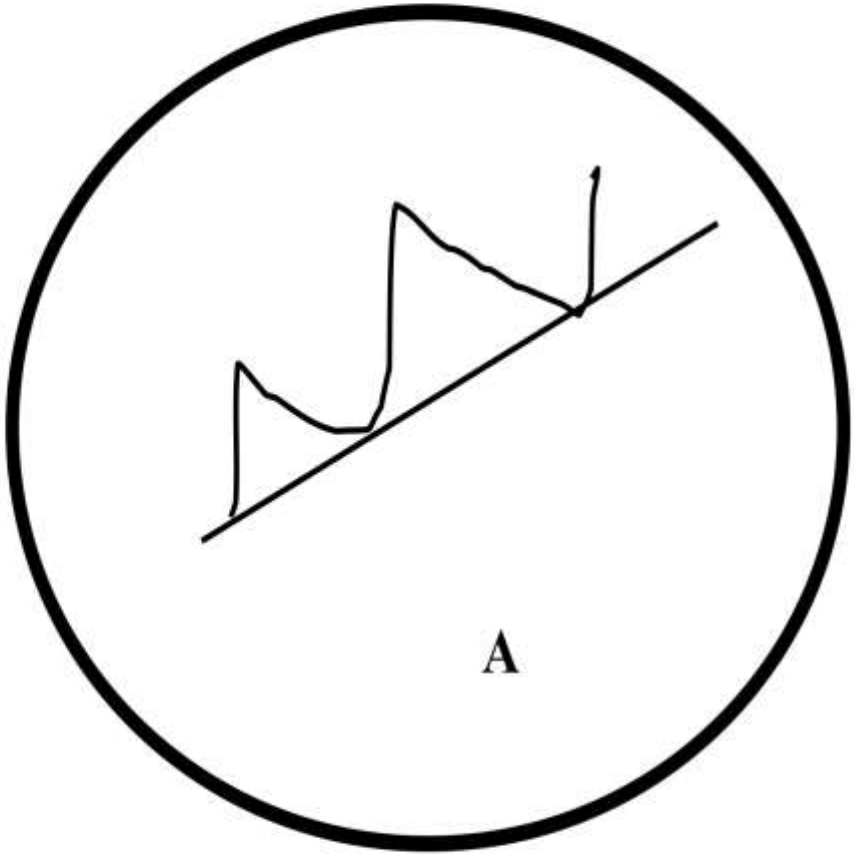
Wealth Training Company

Strong trend line = Less chance for it to be broken

What makes it strong?

- **More times the price bounces of trendline**
- **Trends over longer time period**
- **Angle of trendline – more horizontal = stronger**
- **"Bigger" Peaks & Bottoms (more bars either side of peak/bottom)**

Quick Test – Which is the strongest trendline



Bigger bottoms & longer

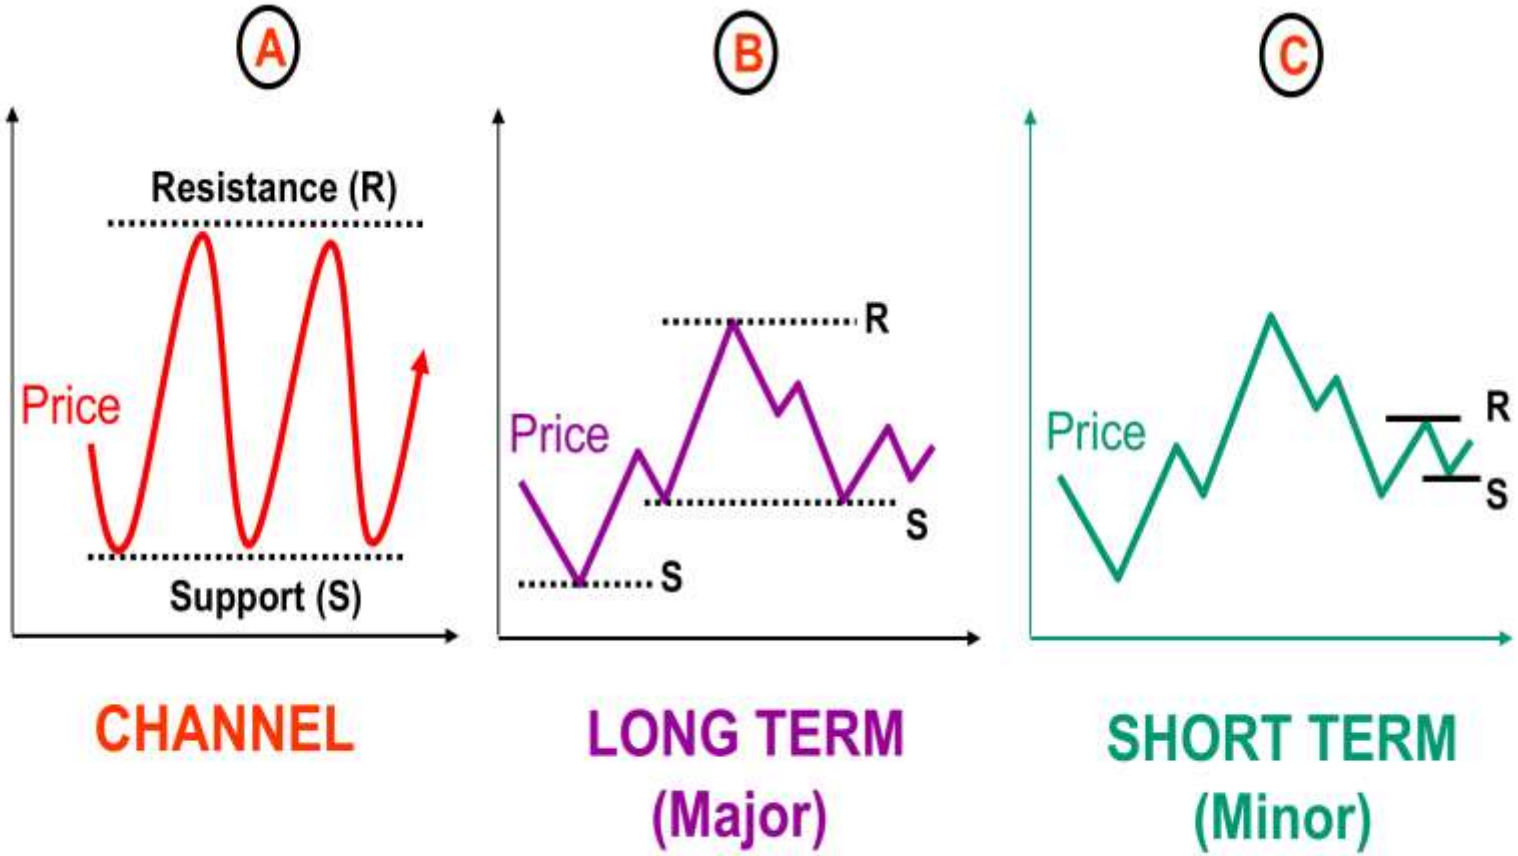
How do we do it?

c) Use Support & Resistance

Floors & Ceilings

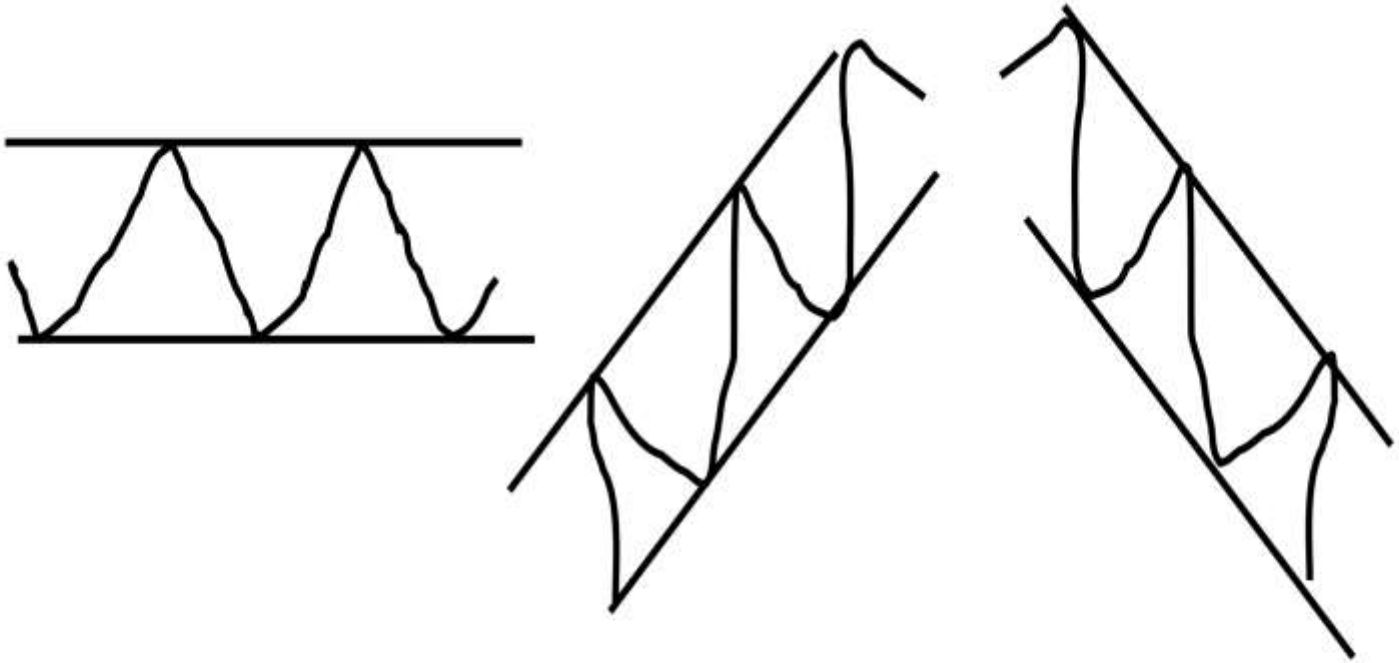
Three considerations:



How do we do it?

c) Use Support & Resistance

Ⓐ **Channels:**



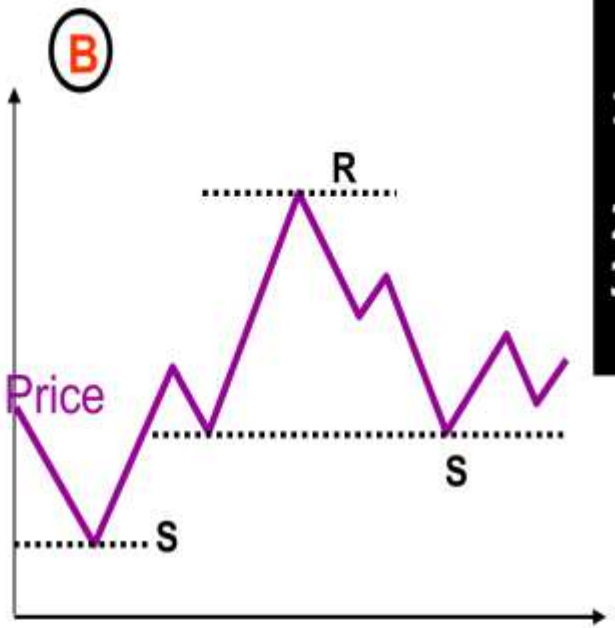
At least two touches

(Peak & Bottoms)

Example of a Channel: AUDUSD

How do we do it?

c) Use Support & Resistance



LONG TERM

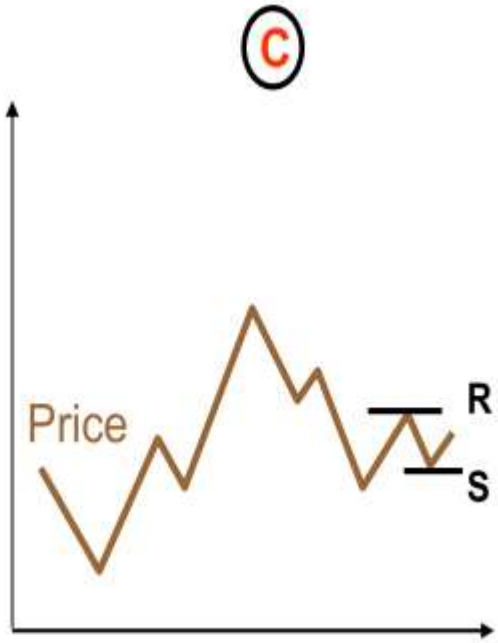
(Major)

Three Major Resistance Levels:

1. Highest High – R
   Lowest Low – S
2. Multiple touches – S
3. Any MAJOR peaks – BIG ones

How do we do it?

c) Use Support & Resistance



SHORT TERM
(Minor)

Short Term Resistance-Support:

1. Most recent resistance
2. Most recent support
3. Usually weaker (unless combined with previous resist/support)
