"If you want true financial freedom to do what you want with your life, you've got to get your money earning you more money, so that it's not taking up your time.

One of the best way to do this is by mastering trading and investing"

Darren Winters

Apprentice Financial Freedom Program

The apprentice program is designed to give you what you need to master trading and investing in the quickest most effective way. Over the 6 month program we'll be providing you with the training, support and 1 to 1 mentoring necessary for you to become a confident and successful investor.

Most people realise that with the current low interest rates, holding money in the bank just doesn't make sense any more, whilst many managed funds and pensions often badly under perform.

Many people have realised that they need to take matters into their own hands and start trading and investing their own money - but without proper support and guidance this can lead to disaster. This program is for you, if you're serious about using trading and investing as a way to build your wealth and create a reliable, ever increasing income. Its about taking control of your financial situation and having a realistic step by step plan to achieving financial freedom.

I believe that this is one of the most valuable skills you can ever master and I look forward to helping you on this most rewarding journey.
